

COMMITMENT TO EXCELLENCE

The character and legacy of our founders, Judge John Minor Wisdom and Saul Stone, have shaped our approach to attorney hiring. At Stone Pigman, we practice law with a commitment to excellence. In both litigation and transactional work, we emphasize the importance of serving client needs through forceful advocacy, thorough research, careful analysis and precise writing.

Our lawyers, while diverse in ideology and background, share the qualities of creativity, dedication and self-motivation. The absence of a rigid hierarchical structure at the firm allows our diversity to thrive, while our lawyers' shared commitment to top-quality legal work fosters teamwork.

Stone Pigman seeks to hire attorneys who have demonstrated these shared qualities through academic and professional excellence as well as civic and extracurricular involvement and leadership.
